P/N 39BA-8

CORD STOCK & EXTRUSION HOLDING FIXTURE

Holding fixture and vise combination is designed to keep cord stock lengths in a vertical position and the bonding adhesive in a horizontal position; eliminating the need for the operator to hold the stock during prep time.

USA & CANADA: Toll Free: **866-545-8008**

INTERNATIONAL: **(+001) 703-584-8523**

P/N 39BA-9
TOLUENE SQUEEZE BOTTLES

16 oz, 2 7/8" diameter x 8 7/8" height. Printed with hazard alerts.
Polyethylene (LDPE) with a polypropylene threaded cap.

USA & CANADA: Toll Free: **866-545-8008**

INTERNATIONAL: **(+001) 703-584-8523**

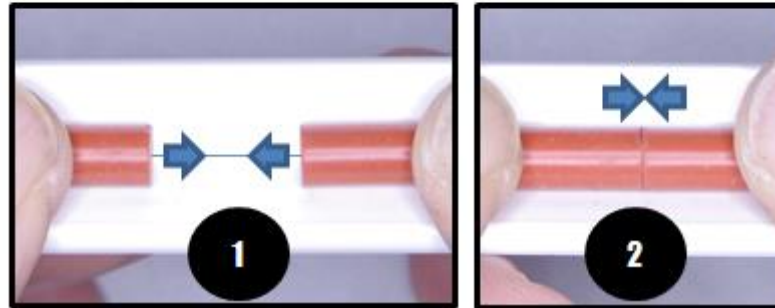

P/N 39BA-10
MINI METAL CAPS

Small metal caps for dispensing the smaller portion of adhesive needed by the operator for a given period of time. This allows the original adhesive container to be properly stored in refrigeration.

USA & CANADA: Toll Free: **866-545-8008**

INTERNATIONAL: **[+001] 703-584-8523**

P/N 39BA-11
V-GROOVE CHANNEL BAR

Allows operators to perfectly align adhesive coated cord stock ends and butt them together prior to introducing the part into the die cavity. 4" LENGTH with a V-GROOVE that accepts up to 5/8" DIA Cord Stock.

USA & CANADA: Toll Free: **866-545-8008**

INTERNATIONAL: **(+001) 703-584-8523**
