

## BONDING ACCESSORIES

### 39BA-1

#### MINI-CUTTER

"V"-GROOVE MINI CUTTER CUTS CROSS SECTIONS UP TO 1/2" INCH

### 39BA-2

#### DIGITAL THERMOMETER

FOR DIE SET CAVITY TEMPERATURE MEASUREMENT

### 39BA-3

#### DIGITAL TIMER

HANDY TIMER FOR USE WITH EB & DB BONDERS

### 39BA-4

#### FLASH TRIMMING PLIERS

FOR PROPER REMOVAL OF ADHESIVE FLASH

### 39BA-5

#### Rubber Cord Stock Measurer-Cutter

With adjustable guides for cutting cross sections .070 to .500 INCHES.

Provides square (90°) cuts on cord stock ends.

Measures lengths up to 192 inches. Metric & Inch graduations.

### 39BA-6

#### PI TAPE MEASURE

Length measuring of cord cut lengths up to 12 Feet on one side, and a diameter tape for measuring up to 45 inch diameters on the other side.

### 39BA-7

#### PIVOT CUTTER

Adjustable guides hold cord stock securely in an optimum squared position in relation to the 3" cutter blade. Provides square cuts (90°) on cord stock ends. Cuts up to 1 1/2 inch diameter cord stock

### **39BA-8**

#### **CORD HOLDING & ADHESIVE DRYING FIXTURE**

Holding fixture and vise combination is designed to keep cord stock ends in a vertical position and the bonding adhesive in a horizontal position; eliminating the need for the operator to hold the stock during the time that is required for the solvent to evaporate out of the rubber adhesive.

### **39BA-9**

#### **TOLUENE SQUEEZE BOTTLES**

16 oz, 2 7/8" diameter x 8 7/8" height. Printed with hazard alerts. Polyethylene (LDPE) with a polypropylene threaded cap.

### **39BA-10**

#### **MINI METAL CAPS**

Small metal caps for dispensing the smaller portion of adhesive needed by the operator for a given period of time. This allows the original adhesive container to be properly stored in refrigeration.

### **39BA-11**

#### **V-GROOVE CHANNEL BAR**

Allows operators to perfectly align adhesive coated cord stock ends and butt them together prior to introducing the part into the die cavity. 4" LENGTH with a V-GROOVE that accepts up to 5/8" DIA Cord Stock.

### **39BA-12**

#### **PLASTIC STORAGE BOX**

This 15" x 8" x 10" orange plastic box also contains a 1" deep U-Shaped top storage compartment that snaps closed. Ideal for packing and carrying EB & DB bonders and accessories.

### **39BA-20**

#### **RING SUPPORT MOUNTING BRACKET**

Designed to assist in holding large diameter o-rings (up to approx. 20" I.D.) during loading and bonding. Sturdy aluminum construction. Accommodates standard peg board hangers with 12 adjustable hole levels. Mounts securely into three screws with nuts located on the back of all DB Model Control Boxes. Supplied with (1) peg board hanger (may be different than shown in photo)
